Programme

Instead of the Foreword

The opening of the 9th International Symposium on Interdisciplinary Regional Research – ISIRR 2007 will take place on 21 June 2007 at 10 a.m. in the Conference Hall of the Faculty of Technical Sciences, University of Novi Sad.

The tripartite regional cooperation of the University of Novi Sad, Regional Committee of the Hungarian Academy of Sciences – Szeged branch and Interdisciplinary Committee for Research and Development of the Romanian West Zone –Timisoara dates back to 1996. The results of joint research projects are presented in the International Symposium «Interdisciplinary Regional Research – ISIRR» in one of the participating countries alternately.

The University of Novi Sad hosted the 3rd and 6th ISIRR Symposium in 1998 and 2002 and accepted the organization of the 9th Symposium by the Decision of its Teaching and Research Council from 17 July 2006. Having in mind the interdisciplinary character of the Symposium, the Organizational Committee was formed from the professors in charge of University Centres within the Association of Centres for Interdisciplinary and Multidisciplinary Studies and Research – ACIMSI.

The Symposium is carried through plenary lectures as well as oral and poster presentations within the following sections, subsections and workshops:

SECTION 1: Regional Development and Entrepreneurship – Globalization and Economy of Small and Medium Sized Enterprises (SMEs)

SECTION 2: Medical Problems in Our Region
WORKSHOP: Ionizing and Non-Ionizing Radiation in Medical Imaging and Therapy

SECTION 3: Ecology and Modelling

SECTION 4: Natural Resources in the Region including Agriculture

SECTION 5: Engineering
SUBSECTION A: Technical Sciences
SUBSECTION B: Technological Sciences

SECTION 6: Social Sciences
SUBSECTION A: Gender Issues
SUBSECTION B: Education

The 9th ISIRR Symposium has received a large response of young researchers and experts from our country, Hungary and Romania. More than 250 abstracts have been submitted and will be published in the Book of Abstracts and CD. The presented papers will be published in the Proceedings following the Symposium.

The overall program of this international Symposium is of great importance to the regional development and cooperation in interdisciplinary scientific fields, especially in the field of environmental protection that is increasingly becoming a global issue.

We appreciate very much your participation and wish you all much success and a pleasant stay at the University of Novi Sad.
